Databases: PostgreSQL, MongoDB

Caching/Performance: Upstash, Redis, Memcached

Container/Orchestration: Docker, Kubernetes

CI/CD: Github Actions ArgoCD, Jenkins

★★ Comfortable

Python, Go Lang

★ Familiar

Professional Experience

Nervvana Corp / AKG Group

IT Department Head, Jan 2023—Jan 2024

Spearheaded IT innovations (Kitchen Display / Room Management System) deployed across all 7 locales, improving operational efficiency.

Implemented major improvements to the inhouse finance system, solving latency problems and optimizing code - reducing loadtimes by 80%.

Successfully migrated the company's legacy IT infrastructure into AWS Cloud, and reinforced with disaster recovery and high availability.

ClickSend

Development Project Manager, Apr 2015—Feb 2018

Hewlett Packard Enterprise

Oracle Solutions Designer, Apr 2013—Apr 2014

Oracle Database Engineer, Jun 2012—Apr 2013

Achievements

Certified Kubernetes Administrator

 CNCF, 2025

BS Management Information Systems

 Ateneo De Manila University, 2005

Hobbies & Interests

I run a local Proxmox homelab with various miniPCs and my main gaming Proxmox host which has multiple GPUs. I enjoy creating high performance/value environments and squeezing every ounce of performance out of hardware.

I enjoy building and working on projects with the latest tech, automation, and systems.

Technologies used: Ansible ArgoCD Terraform Tailscale

Gear: Ryzen 9 9950X3D 128GB DDR5 2x 2TB Samsung 9100

GPUs: 9070 XT RTX 4060
